What is Enrichment?

The Enrichment Programme at Stepney All Saints School offers a wide range of extracurricular opportunities to all students. The importance of activities beyond academic work must not be underestimated. Extracurricular activities complement our students' studies to develop a well-rounded person. Indeed, countless studies demonstrate that students who participate in enrichment activities have a marked improvement in their grades. This can be attributed to skills they learn such as better time management to accommodate their hobbies and class activities, better organisational skills and a boost in their self-esteem. Skills learnt in clubs such as debate can be applied in the classroom too, as the students learn how to express themselves better. Furthermore, through participation in the Stepney All Saints School Enrichment Programme students can form new friendships and engage in new activities ensuring that they develop as well-rounded individuals with a range of skills in preparation for their future lives.

What are the benefits?

- Increased motivation to learn
- Improved self-confidence
- Feelings of belonging to a larger community of students
- Reduced anxiety about academic readiness
- Stronger peer relationships, especially among those who share a common interest
- Increased persistence and resilience
- Discovery of valuable personal qualities previously unknown
- Experience with hands-on activities
- Experience engaging in high level discussion with other motivated students, sometimes from different areas and countries
- Enhanced interpersonal skills
- Learning at a much higher level academically and socially
- Following and developing a passion

1 Peter 4:10

"Each of you should use whatever gift you have received to serve others, as faithful stewards of God's grace in its various forms
